## 1. Project Overview:

- The scatterplot below visualizes the distribution of commits over time, offering insights into the project's activity trends.

## 2. Work Distribution:

- The most worked on files are *RootBeer.java* with 40 commits, *Const.java* with 16 commits, and *MainActivity.java* with 11 commits. The remaining files have less than 10 commits to them.

## 3. Developer Insights:

- Our top contributors are Matthew Rollings with 66 commits and Scott Alexander-Bown with 64 commits.
- Our latest contributors of 2021 are Matthew Rollings, Scott Alexander-Bown, and grubeli.
- Due to the lack of recent commits, it is assumed that Mohammed Ezzat, Andy Barber, aippisch, leocadiotne, vyas, Leon Karabchevsky, Ali Waseem, and Frieder Bluemle have left the project.

## 4. Git Commands Utilized:

- 'git shortlog': Quick overview of contributors and commit counts.
- 'git rev-list --count HEAD -- <file-path>': Provided specific number of commits to each file.
